SDA-7120/SDA-2200 FIRMWARE 1v8 UPDATE INSTRUCTIONS

JANUARY 5TH, 2021

Page 1 of 1

Overview

JBL Synthesis is releasing software version 1v8 for the SDA-7120 and SDA-2200.

Upgrading Firmware

Copy the supplied .hex file onto a USB memory stick (formatted as FAT32) and ensure it is called **image.hex**

Put the USB memory stick into the USB port on the rear of the unit.

- Power the unit off/on. At power up the unit will detect that a USB memory stick is present, and check for the **image.hex** file. If found the update will begin.

During the update the LED will flash red.

Fix list (v1.8):

3250 – Add conformation LED flashes when turning standby timer on/off with MUTE button. Red for OFF, green for 20 mins (default).

Fix list (v1.7):

3250 – Press and hold mute to enable/disable auto standby timer
